## GRAND COLONIAL EXHIBITION

In London, England, 1884.

**FORTY-FOUR THOUSAND FEET RESERVED FOR CANADA.**  
**First Royal Exhibition Commission since 1862.**

THE COLONIAL AND INDIAN EXHIBITION to be held in LONDON, England, commencing May 1st, 1884, is intended to be on a scale of great magnitude, having for object to mark an epoch in the relations of all the parts of the British Empire with each other.  
In order to give becoming significance to the event, a Royal Commission is issued for the holding of this Exhibition, for the first time since 1862; and His Royal Highness the Prince of Wales has been appointed President by Her Majesty.  
The very large space of 44,000 square feet has been allotted to the Dominion of Canada by command of the President, His Royal Highness.  
This Exhibition is to be purely Colonial and Indian, and no competition from the United Kingdom or from foreign nations will be permitted, the object being to exhibit to the world at large what the Colonies can do.

The grandest opportunity ever offered to Canada is thus afforded to show the distinguished place she occupies, by the progress she has made in Agriculture, in Horticulture, in the Industrial and Fine Arts, in the Manufactures Industries, in the Newest Inventions, in Machinery, in Domestic Machinery and Implements, in Fine Works by Metals and Designs; also in an adequate display of her vast resources in the Fur-trade, and in Forest and Mineral wealth, and also in Surgery.

All Canadians of all parties and classes are invited to come forward and vie with each other in endeavoring on this great occasion to put Canada in her true place as the premier colony of the British Empire, and to establish her proper position before the world.

Every farmer, every producer, and every manufacturer, has interest in assisting it, having been already demonstrated that extension of trade always follows such efforts.

By order,  
**JOHN LOWE,**  
Sec. of the Dept. of Agriculture.  
Ottawa, 1st Sept., 1883.

**Claims of Half Breeds and Original White Settlers, Province of Manitoba.**

WHEREAS, since the completion of the allotment of the 1,400,000 acres of land set apart under the Manitoba Act to extinguish the Indian title of the Children of the Half-Breed bands of families resident in the Province of Manitoba, on the 15th July, 1879, a large number of additional claimants have come and some are still coming forward with the evidence necessary to prove that they are children of Half-Breed bands of families and were residents in the Province of Manitoba at the date mentioned; And Whereas, the 1,400,000 acres set apart under the Manitoba Act as aforesaid have been exhausted by such allotment, and by Order in Council, dated the 20th April, 1883, it has been decided to extinguish such additional claims, known as "supplementary claims," by an issue of \$200.00 in scrip to each half-breed child entitled.

And Whereas, by the Act 37 Vic. Can. 29, the Half-Breed bands of families resident in the Province on the date mentioned, and the "Original White Settlers," and the children of such settlers, as defined in the said Act, are each entitled to receive scrip to the extent of \$100.00.

And Whereas His Excellency the Governor General in Council has deemed it expedient to limit the time within which claimants of the nature above specified may be presented; therefore,  
PUBLIC NOTICE is hereby given that under the authority contained in the Order in Council above mentioned, bearing date the 20th April, 1883, all claims under and by virtue of the provisions of the said Order in Council, and the Act 37 Vic. Can. 29, to "Half-Breed" and "Original White Settlers," scrip that are not filed on or before the 1st day of May, 1884, with the Commissioner of Dominion Lands, together with the necessary proof thereof, shall cease and determine.

By order,  
**A. M. BURGESS,**  
Deputy Minister of the Interior,  
Department of the Interior,  
Ottawa, May 22, 1883.

## NORTHWEST COUNCIL.

(More Council proceedings on fourth page.)  
Regina, Dec. 11.—His Honor took the chair at the usual hour.

Mr. Ross, as chairman of the committee appointed to draft an ordinance exempting certain property from seizure and sale under execution, begged leave to report the same, was drafted.

Mr. Turfitt—I would like to ask His Honor whether the Queen's Printer for the Northwest Territories has been given authority to publish in a public newspaper bills not submitted to the House?

Col. McLeod—It was my intention to take this matter up as a question of privilege. Taking advantage of his position, that printer publishes in his paper bills not yet submitted to the House. It is a proceeding that should be stopped. It is a very improper thing to publish part of the school ordinance not yet amended. I suppose it is impossible to stop what is published of the bill, but it is decidedly improper to have it sent through the country in this way. (Hear, hear.)

His Honor—I am not aware the editor of this paper (the Leader) has any authority to publish bills not yet laid upon the table. I know in Parliament, before bills are submitted to the House, they are distributed to the members and sent broadcast over the country. This gives the country an opportunity of discussing the measure. I can say how you have it in your power to prevent bills being published in the papers before they are discussed by the House.

Mr. Ross—I think it extremely improper for the Queen's printer to have published the School Bill, as only a part of it has been submitted to this House. Evidently, one object of its publication is to hold up the House to ridicule.

Mr. Hughes—I consider it is no use taking up the time of this House with the Queen's printer. He is only a crank. (Laughter.)

Col. McLeod—I contend, your Honor, that the papers were given him as Queen's printer, not as any "thing" else. (Hear, hear.) I do intend to take a decided course on this matter. "As yet I am considering what that course will be."

Judge Rouleau—The bill, as it now appears, is misleading to the public.

Mr. Marshall—I would suggest to your Honor that, if such conduct as that complained of is allowed to go on, you will require to increase your staff of Clerks. The correspondence necessarily taking place about this unamended bill must be great.

His Honor—Your motion, Mr. Perley?

Mr. Perley—I was at my motion to stand over, Your Honor. I have invited Mr. Davin to represent when I make my motion. (Cheers and laughter.)

The matter then dropped.

The House went into committee on the whole on Mr. Cunningham's address, asking clemency for the half-breeds and Indians now in the Manitoba penitentiary and who were connected with the late rebellion. The chair was taken by Mr. Ross. Judge Richardson, Judge Rouleau and Col. McLeod and they had tried and sentenced these prisoners and did not care about taking any part in the present committee.

After amendment the address was adopted and ordered to be forwarded at once to the Dominion Government.

The bill relating to dangerous lunatics was also taken up in committee of the whole. Col. McLeod in the chair. After several amendments it was "reported" from the chair and ordered to be engrossed. The House then adjourned.

REGINA, Dec. 12.—Owing to the amount of important work to be got through and the near approach of Christmas, the council sat to-day (Saturday).

Mr. W. D. Perley (Wolseley) moved, that this council desires to place on record its endorsement of the action of the Dominion Government in allowing the sentence of the court on Louis Riel to be carried into effect.

Mr. Bedford seconded the motion.

Mr. Perley said the council was aware that that motion was to have come on yesterday, but he deferred bringing it forward to allow the presence of a certain gentleman who, he observed, was not there in his capacity of reporter. He wished that reporter was there to take down his (Mr. Perley's) remarks. He had no desire to strike a man behind his back, so he had postponed his motion till to-day. He had written Mr. Davin a polite note in reference to the matters which he would ask the Council to listen to. He might add that any remarks of his would not be so strong as they should be if the editor of the Regina Leader were present. No respectable paper would be guilty of the publication of the editorials in last week's Leader. (Hear, hear.) They were manifestly the vilest and lowest outcome of a man who sprung from the lowest element of the human race. The resolution he (Mr. Perley) had proposed would commend itself to every loyal man, and after the vile and indecent attacks on the Council by the editor of the Regina Leader, he felt it his bounden duty to move that resolution.

Having read the resolution, Mr. Perley contended the existing grievances of the half-breeds did not justify the late rebellion.

Judge Richardson—I am sorry to interrupt the hon. gentleman, but I must say I had thought he had risen to speak on another subject—the Queen's printer. As I had been one of those who tried these prisoners connected with the late rebellion, I cannot be present during this discussion. Judge Richardson then withdrew.

Judge Rouleau gave the same reason for withdrawing.

Col. McLeod—I am in the same position as my brother magistrate. I will take no part in the debate.

Col. McLeod remained in the council room.

Mr. Perley, resuming his address, said Riel was guilty of a crime heinous as could be committed by an individual, and in being subjected to the full penalty of the law the ex-rebel chief only received his just reward.

After referring to Riel's mercenary motives, the speaker referred to the fair and impartial trial obtained by the late half-breed leader. He alluded in high terms to Judge Richardson. That Judge's name for veracity and uprightness was unquestioned. He was as honorable a judge as ever presided at a trial. Yet that was the man who had been dubbed "nincompoop" and "fool" in common with the other members of the council by that rascal—the Regina Leader.

Mr. Perley claimed the article of which he complained was the outcome of political spite. For himself he was a Conservative, but he considered it his duty, while representing his constituency, to serve the Northwest first. (Cheers.) While representing the Qu'Appelle district he would discharge his duties faithfully and fairly. He referred to Mr. Davin's conduct in buttonholing members of the Council while the address in reply to His Honor's speech was yet before the House. He stigmatized such conduct as becoming only a dishonorable man and a vile culprit. His

Honor's speech was a good one and creditable to the Lieut.-Governor. That speech dealt with great questions, and he (Mr. Perley) and his brother members deemed it their duty to reply. Davin pretended to be, and in fact he posed as, the champion of the Northwest, but he would tell the council a vile hypocrite never lived than that man. His late conduct in the council chamber showed him (Mr. Davin) to be a political hack of the worst kind. On the discussion of the half-breed clause in the address in reply Davin went amongst the councillors saying that "that clause should come out." He (Mr. Davin) thought that clause would be a weapon in the hands of Edward Blake, hence his uneasiness and anxiety to get it eliminated. Was the council justified in preparing that address? He thought they were most decidedly. Why, the only way they had to tell the Dominion Government of their grievances was through an address of that kind. Yet for that small "offense" they had been held up to public contempt in Davin's vile paper. After alluding to the bad effects the publication of the article in question would have in some quarters, he trenchantly vindicated the course pursued by him and his colleagues. He had dealt with Davin very leniently, but would handle him in a different manner if he (Mr. Davin) were there. (Laughter.) The editor of the Regina Leader did not deserve the attention of honorable men. He (Mr. Davin) was not worthy of being shoe-black to the lowest member of the community; in fact, his (Mr. Davin's) fingers would dirty the shoes of members of the council, even if those shoes were dirtied with Regina mud. (Laughter.)

Resolution carried.

Mr. Jackson introduced a bill to amend the municipal ordinance regarding the appointment of returning officers. The measure was introduced in consequence of the delay in printing the new municipal bill. Owing to its urgent nature, the rules were suspended to allow the bill to pass through its several stages. Copies were ordered to be sent at once to the secretaries of municipalities.

The bill relating to the exemption of certain property from seizure and sale under execution was read a second time. The ordinance exempts one hundred and sixty acres.

Mr. Turfitt again called attention to the unsatisfactory state of things caused by the neglect of the Queen's printer. They might have got through their work in three weeks if provided with copies of the Bill properly printed. As things stood then it might take them three months to get through. He suggested to His Honor the propriety of giving control of the printing matter of that House, say to Mr. Forget or some responsible person.

His Honor said at the conclusion of the session he would consider the question of Queen's printer.

The House went into committee of the whole on the amended school ordinance, Mr. Marshall in the chair.

Owing to the manner in which the printed sheets were "mixed up" by the compositor, the chairman thought the Bill could not very well be proceeded with.

The House being "blocked," adjourned at 4 p.m.

Miss Rose, recently from the Methodist Indian Mission, Norway House, will open an Indian School on Pasagasset Reserve, eighteen miles Northwest of here, in the spring. She gives out under the patronage of the Presbyterian Church. She will have the warm sympathies of those interested in the education of the Red Man.

—At breakfast. The new waiter addresses his mistress: "Will madam take hash?" "No, thanks." The waiter, with the most graceful air I have seen, bows and retires.

**OUR TERMS.**

We have placed our yearly subscription at the low rate of ONE DOLLAR, with the object of enforcing advance payment. We can much better afford to publish a paper at that price when we know that every paper going out is paid for, than if we took the chances of collecting accounts at a higher figure. Besides we will thus speedily secure a larger circulation, which will enhance the value of our advertising columns. So dear reader send us your name and a dollar, and get your neighbor to subscribe, and you will obtain full value for your money in interesting reading from now till January 1st, 1887.

## NORTHWEST COUNCIL.

Regina, Dec. 8.—His Honor took the chair at 2 p.m.

Moved by Mr. Perley, seconded by Dr. Wilson and carried: That the order for the engrossing of the bill respecting the Medical Profession be discharged, and that the same be re-committed to a committee of the whole council for the purpose of striking out Clause One, subsection (b) of the said bill and insert in lieu thereof the following: "All persons at the time of the passing thereof actually residing in the Northwest Territories, and who have for the period of one year prior to such passing been in actual practice of physic, surgery, midwifery, etc., and who possess a medical degree, diploma or license from any University or College in the United States of America, whose curriculum demands at least two years attendance at medical and surgical lectures, provided such University or College authorized by law to grant such degree or diploma be allowed to register under the present Ordinance."

Mr. Perley said there was an excellent doctor in his place (Wolsley) who held a diploma from New York city. That bill would prevent him practicing under his diploma, and he considered it a hardship. (Hear, hear.)

Judge Richardson asked was Mr. Perley's friend a naturalized British subject. The reason he asked the question was because in the United States British subjects were required to become naturalized American citizens before they were allowed to practice medicine and surgery. He thought it was right that they should pass a similar law here. (Hear, hear.)

Mr. Hayter Reed, assistant Indian commissioner, asked to be allowed to reply to Mr. Jackson's false assertions regarding himself (Mr. Reed). Mr. Jackson's accusations were based on mere rumor, and his speech on the Address in reply clearly showed an animus on the part of the hon. member for Qu'Appelle against the Indian Department. Mr. Jackson was inconsistent. What were called "rumors" on Friday evening were afterwards withdrawn, but last night they were termed "facts." He denied that Big Bear had used the words alleged to have been spoken by him at the Carlton pow-wow, and laughed at the idea of Indians telling their designs at a pow-wow. That showed how little Mr. Jackson knew of Indian matters. The Crooked Lake Indians, reported to have been starved, were an idle band of outsiders under "Yellow Calf," who, instead of working for their rations, depended on others for their support. When Col. Haremer took the ring-leaders prisoners he found \$200 on one starving Indian, and Yellow Calf had twenty bags of flour at the mill. These were Mr. Jackson's "starving" Indians. Mr. Reed read the report of Mr. A. Macdonald, Indian Agent, showing that the flour supplied the Crooked Lake Indians was "No. 1 superfine," not the "maud flom" spoken of in the "rumor," and the pork supplied them was of the best quality, not the "rotten pork" alluded to by Mr. Jackson. If rumors were believed he could give a rumor not very creditable to the hon. member for Qu'Appelle.

Mr. Jackson—Tell it.

Mr. Reed—I will—it is that you are trying to turn the Lieut.-Governor out of his post of Indian Commissioner in order to get it yourself. (Laughter.)

Mr. Jackson—I deny the rumor. I would not accept any office from the Government of the Northwest Territories, much less that of Indian Commissioner.

Mr. Reed denied that he had during his recent visit north, cut down the nations of the Indians. He admitted that he did so on only one occasion.

Mr. Jackson—What have you done to the Indians who were mixed up in the late rebellion?

Mr. Reed—Some are on their own resources and some are not. The subject was then dropped.

The house went into committee of the whole on the civil justice ordinance, Judge Richardson in the chair.

Some amendments were passed and Col. McLeod rose to report

progress and report the bill amended.

Judge Richardson moved that the amendments come into effect in February '86. He also moved that the bill be engrossed. Carried.

The House went into committee of the whole on the bill relating to the medical profession, Mr. Secord in the chair. After the insertion of Mr. Perley's amendment, it was read a second time and ordered to be engrossed.

The committee then considered the ordinance respecting schools, Mr. Marshall in the chair.

On section 2, which provides for the appointment of a board of education, consisting of five members, two Roman Catholics and two Protestants, with the Lieut.-Governor as chairman, coming up, Judge Rouleau proposed two separate boards, each to have control of the schools of its own denomination; each denomination could issue its own series of books, etc.

Mr. Perley strongly opposed Judge Rouleau's amendment on the ground that the public money should only be expended in educating children in those branches which should materially advance them in the civil pursuits of life. While the law did compel them to have separate schools and that the board of education should be composed of an equal number of Protestants and Catholics it did not follow they should have separate boards for the internal management of the Education Department. He believed the best interest of the country would be served by the teaching of certain branches to all—a system of national education open to public inspection. In the case of purely Catholic districts a part of the day could be devoted to the teaching of public doctrines. He contended that one board of education issuing one set of school books, and employing a common staff of inspectors would best advance the intellectual greatness and true moral independence of a free and enlightened people. (Hear, hear.)

The section was left over for future consideration.

Mr. Secord did not think a board was necessary. An inspectorate would answer for the present.

The sub-section was left over for future consideration on motion of Mr. Ross.

Mr. Secord proposed that the whole bill be left over till the council had time to read and consider its provisions.

After some discussion progress was reported and the council adjourned.

Regina Dec. 9.—His Honor took the chair at the usual hour.

Mr. Perley rose and presented His Honor with the address in reply. He had much pleasure in doing so.

The address in reply was as follows:

May it please Your Honor:

I am pleased at the opportunity afforded us of once more meeting you and hearing the words of encouragement you are able to offer us. Although the season may be inopportune, we are aware of the exceptional circumstances which weighed with your Honor in fixing the day.

While congratulating ourselves and the country on the increased representation afforded us, we cannot omit to point out to Your Honor the still greater rights of representation, which we feel we are entitled to, but have not yet received. Settled as these Territories in a large measure are by men who have been accustomed to the constitutional rights and privileges of the British Empire and its Colonies, it is inevitable that a feeling of unrest and uneasiness should be prevalent owing to our not enjoying the same.

The taking of the census we are confident will show that our longings and aspirations for local self-government are not the outcome of a few individuals, but the desire of a country settled as largely as some of the present Provinces of the Dominion.

We confidently look forward to

the next session of Federal Parliament granting our requests and calling to their Council representatives from the Territories. As Canadians, we cherish the day when we shall receive the same rights and privileges as the rest of our beloved Dominion and be permitted to take part in moulding its destinies.

We are pleased to note the increased demand for school organization and regret that the means of erecting and sustaining such is so limited. We appreciate your desire to expend the same in accordance with our Ordinance and only regret that any restrictions are placed upon moneys which eventually will no doubt be treated as a charge against us.

We are gratified to learn that some new Municipalities have been formed, but it is our duty to point out to you that in our opinion many such Municipalities would be this have been formed, were it not that so much land is held by large companies who refuse to pay taxes, and the feeling that the creation of Municipalities would only provide the means of raising taxes to be expended as such for the benefit of the odd numbered sections as the even numbered, without paying their fair share of the same.

The position of several townships in which the Government and the Canadian Pacific Railway Company are interested, is very unsatisfactory. It was never intended, we believe, that the exemption from taxation for 20 years, granted to the Canadian Pacific Railway Company should apply to sections of lands subdivided into town lots, and it is highly unsatisfactory to have the Crown claim exemption from taxation of unsold lots in towns allowed to be incorporated by it. The effect is to retard the growth of these centres of trade and to create distrust, and besides the resident owners are compelled to pay the Municipal taxes which are expended in improving the property of the Crown, which in this instance reaps the benefits of speculation without bearing the burdens.

The existence of unoccupied odd sections in the country is a great barrier to settlement; as it separates the settlers and prevents that mutual intercourse which tends to make them happier and more contented. It prevents school organization besides materially increases the dangers of prairie fires. In common with Your Honor, we have to deplore the breaking out of a rebellion in our midst. It is undoubtedly a source of great pleasure to Your Honor that the horrors of a general Indian uprising were averted by the loyalty of many of the Indians themselves.

We regret with your Honor that the hope so long entertained by the people of Canada, that the Indians of the North-West could be governed without a resort to arms, has been by the recent unfortunate outbreak dispelled. We believe that a general Indian uprising was averted by the influence had over many of the tribes by the agents and officers of the Indian Department, and many other loyal persons throughout the Territories at a time of great excitement among them.

We have confidence that the policy of the Government faithfully and honestly adhered to, and the carrying out of the treaty obligations entered into with the various Indian Tribes, together with the beneficial effects hoped to be derived from the establishment of schools, and the efforts of missionaries, amongst them, will prevent any similar outbreak in the future.

Knowing, as we do the great influence always had over the Indians by the half-breeds we have to regret that the repeated representations heretofore made to the Government by the North-West Council, on behalf of the half-breeds and their claims did not receive more immediate attention. We trust your Honor will join with this Council in bringing the matter of the many existing unsettled half-breed claims to the notice of the Government by memorial or resolution.

We feel with Your Honor, that the zeal and the patriotism evidenced by the volunteers, the Northwest Mounted Police and others engaged in responding so nobly to the

call of our country; and the spirit manifested by them in overcoming the difficulties and dangers of a campaign, the magnitude of which none could foresee are subjects of pride and congratulation and we will be pleased to join with Your Honor in a formal recognition of the services rendered.

We trust that the recent visit of His Excellency, the Governor-General and the Ministers of the Crown, will have the effect of directing the attention of the Government and Parliament of Canada to the necessities and requirements of the Northwest and to the importance of its development as a very important portion of the Dominion.

We are pleased to hear that despite these unfortunate events, the growth of the Territories, as evidenced by the receipts and the quantity of grain for export (which is much larger than we anticipated,) has been constant and rapid, and while deploring the loss of life and property during the rebellion, we have no doubt that the effect of the visit of the thousands who have been here this year of citizens, soldiers and otherwise most necessarily increase the immigration, having such confidence in our country as only to ask others to become acquainted with our great natural resources, the wonderful fertility of our prairie land and the vastness of the area still awaiting settlement to justify the same.

The completion of the Canadian Pacific Railway, one of the wonderful events of this century has been consummated without any display and we hope early to feel its quickening effect on the trade of our country. The congratulations of our Gracious Sovereign on its completion shows the great interest taken in it in Europe, and must lead to important results.

The recent visit of His Excellency the Governor-General has been of great gratification to us and his calm and judicious words of recommendation carry conviction with them.

The past year has witnessed the visit of two of the Cabinet Ministers. The results of their visits will we trust, prove of such great advantage to us and the whole Dominion as to warrant any future repetitions. The information acquired by the Honorable the Minister of the Interior, as to taxation, pre-emptions and other details consistent with the administration of his Department, will materially aid him in making such amendments to the Land Laws as the circumstances require.

We note your desire for some means of obtaining the advice and assistance of the Council during recesses and would recommend that the local members assist the Lieut.-Governor during recess with any particular advice required as to purely local matters concerning his district and either personally or by letter.

His Honor replied as follows:

Gentlemen—You are aware that in purely representative assemblies any communication from the Lieut.-Governor to his Parliament is made by message, but constituted as we are, I, as president of your Council, am able to reach you direct. I therefore lose no time in thanking you for the loyal address you have just presented to me in answer to the speech with which I opened this the seventh session of our Council.

The remarks you made in reference to a wish for a greater degree of representation in the territories, I have no doubt you will put in such a shape as will enable me to bring the matter before the notice of the Dominion Government.

The sentiments expressed by you in regard to the odd numbered sections in clauses six and eight in which you state that their existence is a barrier to the formation of municipalities etc., I agree with, but we must not forget that the policy adopted by the Dominion Government which placed these odd numbered sections in their present position has secured for us a railway running through the whole length of our Dominion from east to west, upon which we expect to build up a mighty and prosperous nation.

Passing on to clause 16, which I am aware caused you a good deal of consideration, I must thank you for having determined on it after a very unanimous expression of confidence

of the management of the Indian department of which I am the head in these territories; and for the subsequent Clause No 11, I must also thank you for unanimously agreeing that whatever happened to precipitate the late rebellion nothing was done to justify a resort to arms.

The last clause in your address cannot help but be gratifying to me, showing as it does that you have confidence in my administration of the affairs of the Northwest during recess, and that you prefer that I should consult by letter as heretofore with the several members of the districts rather than a few of them without easy reach of the capital, should be delegated as suggested to assist me.

I trust all the members will communicate with me freely on any subject requiring my attention, when I can assure them it will receive immediate and careful consideration.

"Again thank you for your loyal address."

Mr. Secord presented the petition of the Mayor of Regina, praying for the passing of an ordinance legalizing a certain by-law of that town.

Mr. Jackson presented a petition from the chairman of the Council of the Municipality of South Qu'Appelle, praying for the passing of an ordinance legalizing a certain by-law of the municipality.

Both petitions were referred to the committee on civil justice.

Mr. Perley moved, and Dr. Wilson seconded, that Messrs. Jackson, Marshall, and Redford, and the mover and seconder, be a committee to inquire into and report on the several amounts now claimed by certain school districts and teachers in the Northwest Territories under the Ordinance of 1884.—Carried.

Moved by Mr. Perley, seconded by Mr. Marshall and carried, that Messrs. Ross, Jelly, Jackson, and the mover and seconder, be a committee to prepare a resolution to be submitted to this council, asking the Dominion Government to cause an inspection of wheat, and regulate the grading of the same with due regard to weight.

Mr. Jackson moved and Mr. Secord seconded the following: That Rules Fourteen and Fifteen of the Rules and Forms of Proceeding in Legislative Sessions of this Council, be suspended, to allow of the introduction by His Honor of the following bills:

1. A bill to legalize By-Law No. 10 of the Town of Regina.

2. A bill to legalize, confirm, and declare valid a certain By-Law of the Corporation of the Municipality of South Qu'Appelle.

The bills were read a first time.

The House went into committee of the whole on the school ordinances. After been partially amended the committee rose and asked leave to sit again.

The House went into committee of the whole on the bill relating to the legal profession, Mr. Secord, B. L., in the chair.

The bill was passed after the following, amongst other amendments, had been inserted: "Lawyers outside the Territories must pay an entrance fee of \$50," "all lawyers non-resident in the Territories and holding diplomas may be registered at once by paying \$2."

The bill comes into operation on the 1st of March.

The House then adjourned.

"In what do you find the greatest resemblance between myself and Shakespeare?" "In the fact that you never spell a word twice alike."—Pittsburgh Courier.

## Rapid City Ripples.

A big blaze took place here on the 10th inst. The block consisting of Hewitt's livery stable and D. Maxwell's implement warehouse were totally consumed by fire. All the horses and everything stored in the building were saved. Loss, \$1,600; insurance, \$800. The origin of the fire must have been from the stove or pipe of the office of the stables, no person having been in when it started. The lot being full of hay, the buildings of frame, and the wind fresh, these buildings, in which a large amount of business has been done for years, went up into smoke with remarkable rapidity.

—Hon. Mr. Norquay returned last week from his trip east. During his absence he visited New York, Washington and other American cities. After making satisfactory arrangements on behalf of the Government in connection with the provincial delinquents for the Manitoba Southwestern and Manitoba Northwestern railway companies, Mr. Norquay went to New York in the interests of the North-west Central railway. Mr. Beatty, the president of the company, had been negotiating for some time with a New York capitalist, with a view of getting the work started as soon as possible, and he was very anxious to have Mr. Norquay meet this capitalist and explain to him the nature of the country through which the road is to pass in addition to the character of the land grant to be given by the Government to aid the road; also his opinion as to the probable cost of construction. Mr. Norquay met the capitalist, who states that he has command of all the capital necessary to build the road and will use it for that purpose if negotiations can be brought to a satisfactory issue. What he desires is that the land grant be located, or at least the locality where it will be indicated by sections or townships. He also wants an assurance that the line on the road created by the old Souris and Rocky Mountain Co. grading 50 miles, should be removed by the present company. Mr. Norquay says the company propose to compromise with their creditors, if possible, by inducing them to consent to their claim being a second lien, so that the contractors who build the first 50 miles under the new organization would have the first lien, and after that the lien on the present 50 miles graded should come in. The New York capitalist will agree to that arrangement. Mr. Norquay was led by the president to understand that negotiations had already taken place with a view to a settlement on this basis. Mr. Norquay thinks the capitalist is not only willing, but anxious to build the road if this arrangement can be made.

### How Russ n Doctors Work.

The following story illustrates the manner in which Russian physicians shrink up a patient. During a war, a peasant in the province of Novgorod was struck in the chest with a bullet, fracturing several ribs and wounding the lungs. He was in an extremely critical condition, and a doctor from the nearest town, sixty miles distant, was sent for. The surgeon, as is customary in Russia, took his time and reached his patient by the slowest stages. The man by this time had nearly succumbed to his injuries and stood very little chance of recovery. The doctor made an examination and pronounced the wounds as fatal. He waited several hours, thinking that the patient in the meantime would die, but things did not turn out as he expected, so in order to nullify matters and save him the trouble of signing a death certificate, he made out a death certificate and started home.

For some reason or other the man took a little more time to get well, and he began to grow better until he recovered entirely. The authorities learning of the strange proceeding, demanded the return of the death certificate, which was refused, and now a man walks about in the full possession of the consolation that he is really dead and that his body lies buried in the village churchyard, according to his death certificate.—*London News.*

## HOME & GOSSIP.

### QU'APPELLE.

—Mild.  
—Thawed yesterday.  
—Quadrille party tonight.  
—The nomination of councillors will take place on the 28th inst.  
—Messrs. Johnson & Gorrell's ice rink will be opened to-morrow night free to all.  
—Major Short, Capt. Rutherford, W. E. Jones and F. L. Osler visited Winnipeg last week.  
—Mr. E. W. Warner has purchased a fast trotter from Mr. Alf. Pugsley of Indian Head.  
—It is understood the Qu'Appelle Caring Club will receive an invitation to the St. Paul winter carnival.  
—Rev. Mr. McTavish, formerly pastor of the Presbyterian Church of this place, has received and accepted a call to Chater, Man.  
—Notice has been given that the Qu'Appelle District Court will meet here on the 14th of January, and not at Fort Qu'Appelle as heretofore.

—Mr. T. T. Thompson, of this town, at the request of the electors, has consented to become a candidate for the office of councillor of this municipality.

—Mr. and Mrs. F. L. Osler left here this morning for a trip to Ontario. Miss Killam, who has been spending the summer here, accompanied them.

—Mr. F. L. Osler reports to us the sale of Mr. P. Uniac's homestead half 32, 18, 14, for \$1800, a pretty good figure for a half section of farm land in this vicinity.

—G. B. Murphy has gone east to Portage du Fort, Ont. As usual when single and handsome gentlemen go east, the ladies fear they will not return as they went.

Mr. Robt. Kerslake, who went from here back to Ontario a few weeks ago, has been heard from. He says times are dull there, if anything worse than he left them three years ago.

—We regret to learn the death of the Rev. Mr. Livingstone, Presbyterian Missionary at Broadview. He died suddenly in Brandon on Tuesday, from an overdose of chloroform. He leaves a wife but no children.

—Pere Andre, who figured conspicuously all through the North-West rebellion, and who was present at the execution of Riel as his spiritual adviser, was in town the other day. He was about to start for Ratoche and Prince Albert.

—A big time is expected at the tree entertainment to be held Christmas night in the Methodist church, in connection with the Sunday school. Admission 25 cents. Every body is requested to take advantage of the opportunity afforded for exchanging presents. Parcels left at the parsonage or this office will be placed on the tree for delivery to the intended recipient.

—It cost \$1300 last year to run the North Qu'Appelle Municipality, and \$700 to run South Qu'Appelle. This year it would seem that the comparison between the two will be greater. We have taken instances near the line between the two Municipalities, and find on the north side of the line a half section paying \$25 taxes, and a half section of no less value near it south of the line paying only \$7.42. How is that for a comparison between an extravagant and an economical council.

—Eleven File Hill braves were up before Judge Richardson last week charged with horse stealing last May. Ten of them were sentenced to one month's imprisonment. The eleventh, named Tip-pis-cooch-sie-coo-coo-wa-sis, to four months. This Indian had shaved the mane and tail of his stolen horse. Judge Richardson strongly cautioned the prisoners. The reason for the light sentence was because the time was one of general excitement and all the property was recovered a few days after being stolen. The eleven are a young and vicious-looking set.

### REMINDER

—D. Roy Logan, Tonsorial Artist, wishes all of his customers and friends to call and have a first class hair cut for Christmas, as this will positively be his last appearance this year.

—Messrs. Perley, Ross and Dr. Wilson, as Members of North West Council, are appointed delegates to Ottawa to lay before the Dominion Government certain Northwest matters. Better men could not have been selected.

—A crowded house greeted Mr. Nicholas Flood Davin in the Methodist church on Friday night last, on the occasion of his lecture on the poets Moore and Burns. They went expecting a rare treat, and they were in no sense disappointed.

### EDGELEY.

—Mr. Jos. Fessant has purchased forty sheep, and is going to try the experiment of sheep raising.

—Mr. and Mrs. Whittingham, jr., and Mrs. Whittingham, sen., have gone to Ontario to spend the winter.

—There is about half a day's work still to be done on the Methodist church shed here. Will not some one volunteer the time to finish it?

### BELCARRIS.

—Albert Lewis, the young man was charged with larceny from R. Cadman, was captured near Summerville by the mounted police. He is now in Regina jail awaiting his trial.

—The new Methodist church here was dedicated last Sunday by the Rev. Thos. Lawson of Qu'Appelle. A tea meeting will be held on Christmas to liquidate the debt.

—Mrs. Davitt, who went east to spend the winter in Ontario, has returned, weary of the mud and cold of that eastern country.

—Dunc. Reid has gone east on an interesting mission. Never mind, he is a good fellow and deserves to succeed.

### INDIAN HEAD.

—McMillan Bros. are very active in the wheat market. They have already secured 30,000 bushel and are still buying.

—The English Church people of St. Chads, are talking of holding an entertainment here in the interest of their church, which was recently dedicated by the Bishop.

—Indian Head can boast of one of the most enterprising sextons in the North West. This individual unlike the ordinary genus of his distinguished calling, keeps on hand ready prepared graves for the deceased portion of the community. It would seem as though he anticipated the Last Reaper to cut down not a few the coming season from the number of tombs prepared.

—One thing badly needed here is a school. No interest at all seems to be manifested in the education of the young. As far as scholastic advantages are concerned, our boys and girls are little better than the Indian paposes which swarm through our town. Some say it is because of the opposition from the bachelor part of our community, but a more probable cause is the paralyzing effect of the great anti progress monopoly, the Bell Farm.

### TO THE EDITOR.

SIR: As this neighborhood goes on increasing it is time that the inhabitants should be on the alert and see how they can bring themselves forward by joining with their neighbors at Fort Qu'Appelle and Indian Head in the promotion of an annual agricultural show. To do this I imagine in a thorough way it would be a good thing surely to call a meeting of in-

habitants interested in the subject (and we all ought to be) to take the necessary steps to get members to join the present Indian Head and Qu'Appelle Agricultural Society, and on their becoming members, attend the next meeting of the society, when a motion will be brought forward by myself that there should be a show held triennially at the Fort, Indian Head and Qu'Appelle Station. Surely it would be better to have one large show at each of these places in alternate years than three small shows each year. The prize list would doubtless be so much increased that people would find it worth their while to attend from any part of the municipalities, and the inhabitants of each town would in turn have an opportunity of entertaining their neighbors and advance harmony and good feeling amongst each other. I shall be glad if some of your readers would air their views on the subject, and be still more glad if a meeting could be called to discuss the same.

Yours truly, W. S. REDPATH.  
Qu'Appelle, Dec. 17th, 1885.

### PUBLIC MEETING

#### TO THE EDITOR:

SIR:—Allow me to give you a short account of the proceedings which took place at a large and influential meeting held at Paul Christian's on Tuesday evening last. At 7:30 we all met and after the usual greetings on such occasions, I being a man of high moral standing, one having a tendency to elevate the standard of Society, and whose influence is a power in the nation, was unanimously voted to the chair, amid loud applause. I then thanked them for the honor conferred upon me, and in a brief but heavy speech laid open the object of the meeting, the important questions that would come before them, and drew their attention to the lamentable fact that two of our members had removed from our midst, and their smiling faces were no more to be seen. It being then suggested that a resolution bearing testimony to the individual virtues of our benefactors be passed. It was moved by the Hebrew watch vender Seconded by Prof. Cummings. (particular friends of one of them), that—

Whereas Max, cradled in Montreal a city celebrated only for being his birthplace, born of honest, wealthy but indulgent parents, being of a genial disposition and fond of adventure, was widely known and coveted by every city and hamlet (with one exception) from ocean to ocean.

Therefore be it resolved, that we, mindful even yet, of his many philanthropic acts, and crushed by the sad affliction which befel us, when through the pressure of adversity he was forced to go, erect to his memory a monument at the west end of the immigrant shed near the track—cost not to exceed \$1.37, with the inscription, "Poor Max, the parboiled essence of veracity."

We then took up the question as to who would compose the next council. This brought Barney of the South to his feet who said: I am a man who thoroughly understands this business, when you speak on Council matters you have me right at home, and Mr. Chairman the man who assessed the municipality last year was at home too. (loud applause.) I cannot understand why there should be so much howling about a township or two being left off the roll; we are not like those who are short of territory. Then, Sir, having lots of territory at our command, we deem that 'area fault.' Then, Sir, some say that he did not visit half the municipality. Now as a man who thoroughly understands those things, I would ask what assessor is expected to go so far from home just to satisfy a few vain men who like to see their name on the assessment roll, and what is further they might want to become candidates for the council. No, I cannot allow this thing to go on and what is further the fact of him getting \$35 more than what he asked is sufficient and had a tendency to make him careful.

The meeting then adjourned.  
Who Is Who.

### CONSUMPTION CURED.

An old physician, retired from practice, having had placed in his hands by an East Indian, missionary the formula of a simple vegetable remedy for the speedy and permanent cure of Consumption, Bronchitis, Catarrh, Asthma and all throat and Lung Affections, also a positive and radical cure for Nervous Debility and all Nervous Complaints, after having tested its wonderful curative powers in thousands of cases, has felt it his duty to make it known to his suffering fellow-men. Actuated by this motive and a desire to relieve human suffering, I will send free of charge, to all who desire it, this recipe, in German, French or English, with full directions for preparing and using.
